* Not all respondents who stated they were employed provided salary data.

N & % = Number and percentage of EMPLOYED grads/respondents who provided salary data.

Source: Post-Graduation Reports published by Career & Professional Development

- Data collected by survey of graduates for each academic year; open through six months after commencement, asking first destination after undergraduate degree.
- For respondents who state they are employed, we ask salary, job title, and employer. Not all respondents provide this information.
- Median is the mid-point salary; half the salaries are lower, half the salaries are higher.
Per professional advice, we do not report average/mean because it can be skewed by outliers.
- Full reports online: > www.career.vt.edu > Post-Graduation Report > single-academic-year reports; you can view information by college and major, including: 25th and 75th percentiles for university, colleges, and majors if there is sufficient response N. Salaries by major if sufficient response N.
